

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

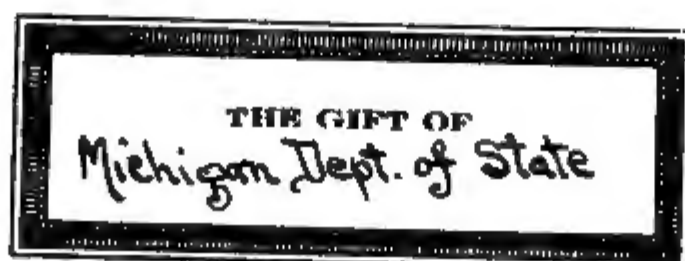

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

The House agreed to the title of the bill.

Mr. Culver, having reserved the right to explain his vote, made the following statement:

"I voted 'no' on this bill as a protest against what I think has become one of the most dangerous habits of this Legislature. Mr. Carr, whose name was used in the discussion of this bill, is now the Circuit Judge of this county, and any litigation in which the State is involved as a party has to be brought before Judge Carr. Every two or three days a bill is brought up here in which Judge Carr's say-so is used as an argument for putting over the bill. That absolutely bars Judge Carr and lays the grounds for barring him from sitting on these questions. It seems to me that we ought to be able to handle these questions on their merits without bringing in the Judge's name. For that reason, I voted against this bill."

House Bill No. 440 (file No. 212), entitled

A bill to amend section 3 of Act No. 365 of the Public Acts of 1913, as amended, entitled "An act to regulate and license fishing with tugs, launches, boats and nets in the waters bordering on this State," being section 7731 of the Compiled Laws of 1915,

Lord, our God, God of our Fathers, God of those in every generation who have trusted in Thee and who have made our world a better place: instinctively and confidently we come to Thee. We are assured that the men and women who go out in the world today in the fear, in the confidence, in the trust of the Eternal God, are the men and women who shall remake our world. On this fine day of sunshine, speaking of Thine eternal kindness, stir within us, we pray Thee, all those finer purposes; and as we give ourselves to the tasks entrusted to us, may we, with heroic souls, fine vision, splendid heroism, perform our common tasks. We make our request known in the name of the most manly Man our world has ever known—the Son of God, Jesus of Nazareth. Amen."

The Committee on Michigan Reformatory, by Mr. Green, Chairman, submitted the following report:

To the Honorable Speaker of the House of Representatives:

Your Committee on the Michigan Reformatory at Ionia, having been directed by the House to make an investigation of said institution, beg leave to report as follows:

On the first visit of your committee to the Michigan Reformatory at Ionia, upon its biennial institutional visit, the conditions found there were so intolerable that we decided that a thorough investigation was needed. Authority for the same was given and investigation had.

Prison Management.

The testimony of all witnesses, including the deputy warden and other employees, showed a lamentable lack of management, amounting almost to gross mismanagement of the prison, a burden which we think is shared both by the warden and the Board of Control. The witnesses were unanimous in testifying that the warden, with a very few exceptions, never inspected the prison, food, sanitary or other conditions. Although a great number of prisoners were sworn and testified, there were none who knew of any inspections of any kind being

made by the Board of Control. In fact, the testimony showed that the Board of Control apparently never went beyond the corridor of the prison. This failure to perform the duties of their office is inexcusable on any ground. The fact, that the Board of Control received no compensation does not justify their failure to perform their duties, and especially when such failure contributed directly to the detriment of the prison and its inmates. The committee is unanimous in the belief that any member of the said Board of Control who found it impossible to perform these duties should have resigned at once and permitted the appointment of someone who could and would perform his duties. Your committee unanimously endorses and commends the action of Governor Groesbeck in requesting the resignation of the Board of Control and of the warden because of their mismanagement, neglect, and their failure to perform the plain duties of their office and herewith commends him for his prompt and firm stand in the matter.

Discipline.

Your committee found the discipline of the prison to be poor. Inmates were apparently upon the verge of riot and the lack of discipline was such that your committee believes that by reason thereof, the lives of some of the attendants were in imminent danger. This was undoubtedly aggravated and in a very large extent due to poor food, poorly cooked; lack of recreation or diversion; gross injustice and cruelty in the treatment of inmates; lack of confidence of the inmates in the warden, deputy warden, and such other guards who were found to be guilty, not only of gross neglect, but in several cases as shown by the testimony, of downright cruelty.

Treatment of Prisoners.

Inmates were treated in many cases with extreme cruelty. They were chalked in their cells for weeks and months at a time without exercise or even a bath; they were chained with their hands above their heads for hours at a time (sometimes as long as eleven hours) to posts in the public corridor of the prison; the testimony shows that inmates were struck by the attendants without justification while so chained; they were placed in what the inmates call the "Hole" for from one to nine days at a time on a quart of water a day and dry bread; buckets with excretions were left in the cells for twenty-four hours. These so-called "holes" were cells four feet by seven feet, dark, filthy and dirty, with no ventilation whatever except a few small holes bored through the wooden boarding on the door. Buckets were interchanged without being properly washed, thus inviting the spread of disease. Men were placed in stripes with a ball and chain attached to their feet. This ball and chain was left in many cases for three months without removing, the prisoner being compelled to carry it with him at all times and to sleep with it on. In this connection the committee cannot too strongly condemn the cruelty of Deputy Jerome I. Walker, and Walter Rich, Captain of the Guard.

Sanitary Condition.

The sanitary condition of the prison was extremely bad. The yard, corridor, cells, and halls were covered with dirt, waste paper and filth. Cells were especially filthy and full of cobwebs and infested with bed bugs and other vermin. Blankets were seldom, if ever, washed, according to the testimony of both inmates and attendants. Clean, healthy boys were compelled to use these blankets without being washed after they had been used by men who were infected with all kinds of diseases.

Physical Condition of the Inmates.

The result of the physical examination made by Dr. Olin, the State Commissioner of Health, showed that out of 737 inmates examined, 524 were affected with some sort of a disease or defect. There were 125 afflicted with venereal diseases. Many of these men were in the institution several years without receiving treatment. They were allowed to mingle with other prisoners, all eating in the same dining room and dishes being interchanged without being properly sterilized. Despite the great number of men diseased, no effort was made to furnish

them medical attention beyond the fact that a local physician visited the prison for thirty minutes daily.

Prison Farm.

The prison farm was very poorly managed. There was absolutely no system of any kind, nor was there any check upon the finances. Produce and stock was sold and the money re-invested without any record being made, thus leaving a wide opportunity for fraud. Feed of all kinds was wasted and extravagance was running wild. Although there was some of the best stock in the state on the prison farm, negligence in the registration was the means of great loss to the state inasmuch as pedigrees could not be properly traced.

Recommendations.

In conclusion your committee wishes to endorse the prompt and efficient action of Governor Groesbeck, of the prison management, and of the State Commissioner of Health, with respect to the work already done in the institution since the investigation. A recent visit showed marked improvement along all lines, especially in the physical condition of the inmates, the treatment given them and the sanitary condition of the prison. Cells, hallways and cell blocks were being cleaned up and painted. Food is being properly cooked and in sufficient amounts. The discipline of the prison has improved wonderfully, cruelty is no longer practiced by the officers or attendants, and inmates are receiving proper treatment in every way.

Your committee wishes to make the following suggestions and recommendations:

1. That the re-painting of the cell blocks be completed.
2. That all prisoners should be given a thorough physical examination upon arrival at the prison and at periodic times thereafter.
3. That all inmates afflicted with venereal or other diseases should be completely segregated until such a time as the disease is under control and beyond the stage where there is danger of transmitting it to other inmates of the institution.
4. That the inmates should be given the fullest opportunity of attending the school and the chapel of the prison and of developing the intellectual, religious and moral sides of their lives. The library should be furnished with literature of a clean, uplifting character, insuring each inmate with sufficient reading material. This particular recommendation is made by your committee because of its conviction that the state should use every effort to demonstrate to the offenders in this institution the real value of clean, upright, American manhood.
5. Prisoners should be given proper exercise and recreation; as far as possible reasonable sport should be encouraged, your committee believing that it is extremely essential for these men to have healthy bodies if they are expected to develop clean minds.
6. An accurate and simple system of accounting should be adopted for the farm. All money realized from the produce or stock sold should be turned in to the prison treasury and duly credited to the farm. All labor and produce or stock bought should be charged up to the farm. As far as possible only such crops should be raised as can be consumed by the inmates in the institution. In this connection your committee further believes that it would be the part of wisdom if a supervisor could be appointed by the Commissioner of Agriculture who should visit each institutional farm two days per month, keep an accurate inventory of all property on all state farms, consult and advise with the manager of each farm visited, and in general act in an advisory capacity with respect to the various institutional farms.

In conclusion, your committee begs leave to suggest to the Governor and the Administrative Board that the conditions such as this investigation has brought to light would be effectually averted if it could adopt a policy of making a regular inspection and investigation of each state institution. Your committee believes that no institution should be permitted by the state to lapse into a condition approaching almost total collapse so far as efficiency, control, discipline, and even the instincts of plain humanity are concerned, to be brought to light only when conditions have proceeded to such an extent that public opinion makes such an investigation as this an imperative necessity.

The report of Dr. R. N. Olin, Commissioner of Health, is hereto attached and made a part of this report, all of which is respectfully submitted.

Committee Chairman.

Report on Investigation at Ionia Reformatory.

By R. M. Olin, M. D., Commissioner, Michigan Department of Health.

CELL BLOCKS.

Inside the gates of the main building the corridors and cell blocks are in an extremely dirty condition. Apparently there is no attempt made to keep the halls or cell blocks clean.

The cells themselves are in a very filthy condition. Ventilation is very poor. The walls are covered with several coats of whitewash, which are loose and harbor bedbugs and cockroaches.

The same condition of the walls exists in the wards outside of the cells. Taking it as a whole, the conditions are in an unsanitary, filthy condition and overrun with bedbugs and cockroaches.

BEDS.

The beds are simply tubular frames and in lieu of springs a two inch band iron is woven across the frame, which sits on ordinary wooden sawhorses. On this is placed a tick filled with straw, then two sheets and two blankets. The men are furnished with one clean sheet weekly. Most of the blankets have been in continuous use for six years and part of them were washed three years ago. As one inmate is discharged, a new man coming in is assigned to the cell lately vacated, with no change of bedding—not even the sheets.

BATHING and UNDERWEAR.

The men are allowed a change of underwear every two weeks. The men are given a shower bath every Saturday and their morning wash is obtained from a tin basin about six inches in diameter and four inches deep, which is placed on a shelf attached to the inside of the cell door and is filled each morning by an attendant. The inmates are allowed one towel each week.

TOILETS.

In the end of each ward there is one toilet seat surrounded by a tight board partition, which completely hides the occupant from the view of the attendant. These toilets have the appearance of not having been scrubbed for months. Several of them are temporarily out of use.

BUCKETS.

Each cell contains a bucket, which is used in lieu of a toilet. These buckets are gathered up in the morning, taken out behind the buildings, dumped into the sewer, rinsed in cold water, taken back to the cells and distributed promiscuously, so that, if any man gets the bucket that he used the day before, it is an accident.

DINING ROOM.

The dining room is in about the same condition as the cell blocks; the tables and floor are dirty and in a generally unkempt condition.

KITCHEN.

The kitchen is in about the worst condition of any part of the institution. There is an accumulation of many weeks of dirt and grease on the tables, and the remark made by the chef put in charge by Major Marsh, that he had five inmates scrubbing the utensils for three days to ascertain whether they were made of aluminum or sheet iron, will about express the condition they were in.

REFRIGERATORS and BASEMENT.

The refrigerators and basement seem to be storage room for all kinds of waste, such as empty boxes and empty tin cans, etc.

WATER SUPPLY.

The domestic water supply for the institution is taken from a shallow well located about 1500 feet northwest of the institution grounds. This well is not properly protected from contamination and when examined some dead mice were seen floating about in the well. The water from this well is pumped to the institution by an old inefficient steam pump which should be replaced by one of higher efficiency. As there is no method employed for measuring the water used, the quantity used or wasted is not known. The excess water pumped over the amount consumed goes to an uncovered reservoir, located on high land about 1000 feet northeast of the institution, and at times, when consumption is greater than the amount furnished by the pump, this water returns to the system and is used. This reservoir was dirty from an accumulation of dust, leaves, etc. A laboratory examination of this water shows it to be dangerous for drinking purposes.

MEDICAL EQUIPMENT.

The medical equipment consists of a dispensary room and a hospital. Neither of these is clean or provided with adequate facilities for the diagnosis and treatment of disease.

The hospital building is in the same condition as the other buildings as far as filth, etc., is concerned. The building itself is well built and well planned and is of sufficient size for this institution. It seems to have been used for the housing of individuals who were unable to work, but the majority of them should not have been placed in the hospital. This hospital will accommodate 35 patients without overcrowding.

The operating room is large enough and it is well lighted. There are no facilities for sterilization of dressings or instruments.

MEDICAL PERSONNEL.

The medical department of the institution in the past has been presided over by a physician from Ionia, who was called to the institution whenever requested by the deputy warden. This has averaged twice a week. This was entirely inadequate. The patients and inmates were being sadly neglected. An inmate without medical training cared for the routine dispensary clinic. Other inmates managed the hospital and cared for the patients. During this investigation I attended to those that called at the physician's office each morning. There were on sick call from 40 to 75 men each morning that we were there, some with real troubles, some with imaginary troubles, and some camouflaging, to get out of work. I believe that this morning sick call should not be neglected, as this is the place for the early detection of a threatened epidemic and, if the men feel that they are being physically neglected, it has a strong tendency to lower the morale.

As directed, a full-time physician has been employed.

PHYSICAL EXAMINATION.

A complete physical examination of each inmate was accomplished. The procedure was as follows: Complete physical examination of all inmates; a second examination of cases of suspected tuberculosis, heart disease, and other patients difficult to diagnose; examination for venereal disease and hemorrhoids; blood Wassermann reaction for syphilis; spinal fluid Wasserman reaction on selected cases; routine throat cultures; repeated examination of sputum on all cases of suspected tuberculosis; recording of temperature, pulse, respiration on all cases of suspected tuberculosis for 7 days; other laboratory work on selected cases; certain essential emergency surgery.

The results of this examination are as follows:

Total number examined	737
Negative—No disease or defect	213
Positive—Disease or defect	524

Figures on totals are subject to slight revision.

No attempt to complete eye and ear examination or a complete psychopathic examination has been made.

Only teeth and tonsils are included which are in need of immediate attention.

All cases of suspected tuberculosis are under observation.

The cases of syphilis and gonorrhea, many of them having been in the institution for several years, have received no treatment and in many cases the disease has progressed very rapidly. There has been no system of segregation, the men all eating in a common dining hall. The dishes have not been properly sterilized after each meal. They use the common drinking cups and many of the cases of syphilis existing in the institution may have been contracted since admission.

There are many bad pervers in the institution, who should be locked all in one cell block and should be constantly kept in sight of an attendant when they are not locked in.

The conditions that were found through this examination have been rectified as far as possible. All cases are being treated. The suspected tuberculosis cases are being watched and placed under such treatment as is available.

QUARANTINE.

Those committed to the institution have been allowed to immediately mingle with the other inmates, thereby running great risk of bringing communicable diseases into the institution. No system of quarantining these new inmates has been in use.

The medical problem at Ionia consists of:

- Cleaning and sanitation of the Reformatory,
- Treatment of venereal disease,
- Surgical treatment of existing diseases and defects,
- Establishment of admission isolation hospital,
- Dental care of inmates,
- Routine treatment minor ailments and sickness,
- Admission physical examination and administration of laboratory tests to prevent disease in the individual and the institution,
- Mental disease and sexual perversion.

Recommendations.**CELL BLOCKS.**

That the entire institution be cleaned and adequate facilities for the sanitation of the Reformatory be installed.

That the whitewash be scraped from the walls and the walls thoroughly cleaned with hot water and disinfecting solution and painted, carefully filling in all cracks and crevices with paint. An oil paint should be used, so that it can be washed with soap and water frequently. This will leave no breeding places for bedbugs and can be kept in a clean, sanitary condition.

BEDS.

That a supply of iron beds be secured from Jackson Prison, where they are manufactured, to take the place of all those beds that are resting on wooden sawhorses, as wooden sawhorses can not be kept free from vermin when used in these dark cells.

That the straw ticks, which furnish the very best breeding places for bedbugs, be replaced by cheap cotton mattresses. After somewhat of an investigation, it is found that this is about the only State institution using straw ticks.

That the blankets be thoroughly washed and fumigated and those that go to pieces in the washing be replaced by new blankets. After a thorough search, it is found that all of the blankets used by the institution are now on the beds and that new blankets should be immediately furnished in sufficient quantity, so that a small supply may be kept in reserve at all times.

That clean sheets, both top and bottom be furnished weekly and that no men coming into the institution be assigned a cell without the cell being thoroughly cleaned and new bedding furnished.

BATHING and UNDERWEAR.

That the men be allowed one change of underwear at least every week.

That the men be given shower baths at least twice a week.

That facilities be furnished at the end of the cell block where the men can wash and clean their teeth upon being unlocked each morning.

That at least three towels a week be allowed each man.

TOILETS.

That the toilets be cleaned and repaired.

That the partitions about the toilets be remodeled by leaving an open space about knee-high at the bottom and lowered from the top, so that an inmate using the toilet can be easily seen by an attendant. The only way to eradicate the many cases of perversion in the institution is to keep the perverts always in sight, except when locked in their cells, by themselves. And, as the toilets are hiding places for this class of individual, the arrangements of the partitions as suggested will allow the attendants to prevent more than one occupying a toilet at a time and otherwise to keep track of his men.

BUCKETS.

That the buckets used in the cells be repainted and numbered to correspond with the cells; that they be dumped and then immersed in hot water and in a disinfecting solution; and returned to the cell bearing the same number.

KITCHEN.

That all kitchen utensils at the hospital, including dishes, be discarded and aluminum utensils and steel plates be furnished in their place. The dishes in present use in the hospital are badly cracked, nicked, and the cooking utensils are in very bad condition. These utensils, especially in the hospital, should be kept scrubbed clean and should be sterilized after each meal, which can not be done with the utensils now in use.

WATER SUPPLY.

That the water system be completely rebuilt.

That a high, tightly woven or tight board fence be built about the reservoir, which is about 300 feet in circumference, to keep leaves, brush and small animals out of the reservoir; also that the building around the well be repaired; and that the wall be cemented on the outside from the water line up, to keep mice and other vermin out.

MEDICAL EQUIPMENT.

That a dressing sterilizer and a small instrument sterilizer be purchased for the hospital.

That supplies necessary for the prevention and treatment of disease be purchased immediately.

MEDICAL PERSONNEL.

That a full-time resident physician at a salary of \$3060.00 yearly be employed.

That the services of a dentist at full time be employed until the men's teeth are in proper repair. (This should require two or three months' work.)

That the inmates be examined by a psychiatrist.

QUARANTINE.

That an admission isolation hospital be established.

PERVERTS.

That the many bad perverts in the institution be locked all in one cell block and be constantly kept in sight of an attendant when they are not locked in.

STERILIZERS.

That a small sterilizer of sufficient size to hold the barber's equipment be purchased for the barber shop.

That a bedding and mattress sterilizer be purchased for the institution and that all bedding in the institution be sterilized at least every sixty days.

RECREATION.

That there be supervision of the inmates' recreation.

Since this report was started, Major Marsh has had several gangs of inmates at work cleaning the institution. The kitchen and dining room have been thoroughly renovated. The ice-boxes have been cleaned. The basement under the dining room has been cleaned. The corridors in the cell blocks have been cleaned. In one cell block the walls have been scraped and are ready for the washing and painting. He has also had built cement tubs for the proper cleansing of the cell buckets.

A portable house has been moved from the Constabulary Headquarters to Ionia, which will be used as a detention hospital for the housing of men just admitted to the institution. These men will be detained for a period of fourteen days before they are allowed to mingle with the other inmates of the institution.

(3) Amend the bill by inserting after line 6 of section 1 the following words:

"Title

An act to set aside the submerged and swamp lands * * * belonging to the State of Michigan bordering upon the Great Lakes and the bayous thereof and those lying along the shores of the Kalamazoo, Grand and Muskegon rivers, for a public shooting and hunting ground, defining the limits thereof and providing for its care and management."

The message also informed the House that the Senate had amended the title so as to read as follows:

"A bill to amend the title and section 1 of Act No. 171 of the Public Acts of 1899, entitled 'An act to set aside the submerged and swamp lands in the State of Michigan bordering upon the great lakes and the bayous thereof for a public park, defining the limits thereof and providing for its care and management, being compilers' section 400 of the Compiled Laws of 1915.'"

The message informed the House of Representatives that the Senate had passed the bill as thus amended, and had ordered that it take immediate effect.

The Speaker announced that under Rule 58 the bill would lie over one day.

A message was received from the Senate transmitting

Senate Concurrent Resolution No. 20—

A resolution relative to the control and management of the Legislative Reference and Information Department.

Whereas, the Legislative Reference and Information Department was transferred to the Legislature by an Act of the present session and the Legislature was thereby empowered to adopt rules and regulations governing said department, to authorize the employment and fix the compensation of such employees as, in its judgment, may be necessary properly to perform the work of said department and to authorize its officers to procure such office furniture, equipment, printing and binding and supplies as may be necessary for said department; now therefore,

Resolved by the Senate (the House of Representatives concurring), That the Secretary of the Senate and the Clerk of the House of Representatives shall have and exercise supervisory control of the Legislative Reference and Information Department and shall so direct and manage its activities for the Legislature as to carry out the purposes of the law creating said department. They are hereby authorized to employ a suitable person to perform the duties in said department heretofore performed by a clerk assigned by the State Librarian for that purpose, and such other duties as may be assigned by said Secretary and Clerk. Such person shall receive compensation, while so employed, not to exceed one hundred and twenty-five dollars per calendar month, from and after the thirtieth day of June, 1921. The said Secretary and Clerk are further authorized to procure, from time to time, such furniture, equipment, printing and binding and supplies as may be necessary for said department.

The message informed the House of Representatives that the Senate had adopted the resolution.

"I voted 'no' on this bill because, as I understand it, and I think I am correct, under this bill passed, after January 1, 1922, no poor boy can study law at home and seek admission to the bar. Under this law James Garfield and Abraham Lincoln could not have been admitted to the bar. If it is as I understand it, it certainly is a shame and a disgrace to disbar the poor boys of this State because they cannot go to law school and study under some particular lawyer."

Mr. Town, having reserved the right to explain his vote, made the following statement:

"I have in mind a specific instance connected with Jackson County and the State of Michigan. Senator Townsend at an early age went into the public schools of Jackson city and rendered a service that will never be forgotten and at the same time paid his family's debts that relieved the burden from his family. He was elected Register of Deeds of Jackson and took up the study of law and passed an examination that was second to none ever passed in this state, and for that reason I voted 'no,' as there are scores of other boys who are ambitious to give their time in service to the commonwealth in which they live."

Mr. DeWitt, having reserved the right to explain his vote, made the following statement:

"The speaker before me stole all my ideas. He stated exactly my thoughts. Neither Lincoln nor Garfield could be admitted to the practice of law in Michigan unless they took a three year's course, which is already provided in the old law, in a college in this state, or a four year's course under some reputable attorney and pass an examination by that attorney. All that this new proposition is that it institutes a roster in Michigan for Michigan lawyers of those who are admitted to practice in Michigan. It provides a roster, so that if anyone wanted to know who are practicing law here he could run over that roster. I think it is an excellent bill."

Mr. Culver moved to reconsider the vote by which the House today did not pass Senate Bill No. 1 (file No. 1).

The Speaker ruled that the motion was not in order, for the reason that the vote had once been reconsidered.

Mr. Hopkins, having reserved the right to explain his vote, made the following statement:

"Now, gentlemen of the House, I am really disappointed. I really believe you think you are doing something good, the same as you did on the other bill you passed here. You are trying to do something to help the poor boy yet you are opposed to the judge of probate being an attorney. In other words, when the poor boys come to have their estates judged they will have to pay a fee to an attorney which they wouldn't have to do if the judge of probate could do otherwise. I am very glad that you understood the bill."

Resolved, That the Speaker and Clerk of the House of Representatives be authorized and directed to draw vouchers for compensation to all employes of the House up to and including the day of final adjournment thereof: Provided, however, That the Sergeant-at-arms shall certify to the Speaker and Clerk whether each employe under his direction has fully completed the work assigned him; and provided further, That no employe shall be paid in full unless the Speaker and Clerk shall determine that such employe has performed all duties required of him for the session and that he is entitled to such compensation.

The resolution was referred to the Committee on Ways and Means.

House Concurrent Resolution No. 23.

Whereas, There is a considerable demand in various sections of the State of Michigan for additional trunk line mileage in order to better serve some sections of the state which are not now adequately served by the present state trunk line system; therefore be it

Resolved by the House of Representatives (the Senate concurring), That the State Highway Commissioner be and is hereby instructed to prepare and present to the Legislature of 1923, for its consideration, a plan whereby the present trunk line highway system of the state may be revised, eliminating unnecessary branches and shortening circuituous routes and adding thereto enough mileage to make the entire trunk line system a total of not more than seven thousand miles.

Dr. J. G. Haller, Assistant Superintendent of the Anti-Saloon League of Michigan, offered the invocation:

"Oh, Great God of the universe, we thank Thee because Thou art God of this moral universe founded upon principles of righteousness and truth. We thank Thee that we have this recognition of Thee. Give us also, we pray Thee, a becoming sense of dependence upon a higher power and a greater wisdom than our own in dealing with the moral issues that are laid upon this body of men. We pray Thee that we may consider and seek the good of our fellow men and maintain a respect for our own convictions as we seek to do what is best in these arduous closing hours of this momentous session. We pray that we may be aided by an unseen hand and guided aright by an unerring mind. Help us to desire to do right, and may the blessing of the Almighty be upon the deliberations and the legislation that have taken place in this center of great influence for the good of our commonwealth. Give us, we pray Thee, a real valuation of moral merits and virtues, a real definition of truth; and give us always, again and again, a re-birth of respect for government and for law; give this blessing likewise to those whom we call our constituents. May our people more and more imbibe this principle of high regard for the holy mission appointed by God to this great land of ours. Bless Michigan, my Michigan. Go with these men in their arduous tasks through these remaining days of this session. Through Our Lord and Christ. Amen."

Bless the Governor and all who are associated with him in advancing the best interests of this great commonwealth. We ask it in Jesus Christ's name. Amen."

The Committee on Industrial School for Boys, by Mr. Chase, Chairman, submitted the following report:

To the Speaker of the House of Representatives:

Your committee, to whom was referred the investigation of the Industrial School for Boys, respectfully reports compliance therewith.

Several hearings were had and a record made of the testimony taken. Such record is too voluminous to be made a part of this report.

From the testimony taken, and investigation made, we submit the following:

1. There have been during the past five years instances of unnecessary severe punishments inflicted on boys sentenced to the Institution. In each instance, however, as soon as the information came to the Board of Control, the person responsible for the severe punishment was summarily discharged as an employe of the Institution.

2. Investigation as to the health conditions of the School covered a period of eight years and the record made has been exceptionally good.

3. The food served to the boys of the School is wholesome, nourishing and sufficient in quantity, as indicated by the excellent health report.

4. The buildings of the Institution are inadequate for the needs of the School. They are old, improperly constructed, unsanitary and overcrowded, and have no facilities for the proper training of the boys of the School. The testimony taken indicates that Mr. Scott, Mr. Gay and Mr. Bohnet, members of the Board of Control, have felt a keen realization of their responsibilities and have given the needs of the Institution their active, personal attention and supervision.

5. We recommend as follows:

- 1st. That an appropriation of not less than \$750,000 for each of the years ending June 30, 1922, and June 30, 1923, for the construction of new buildings on the recently purchased site, and that in the construction of such new buildings they be arranged so that there may be a proper segregation of the inmates.

- 2nd. That the Board of Control, under the supervision of the State Welfare Department and the Administrative Board, as soon as possible reorganize the management and methods of the School, and institute a thorough and comprehensive system of vocational training.

- 3rd. That hereafter the investigations of the Schools be conducted by the State Administrative Board in such manner and at such times as they may deem best.

- 4th. That a copy of this report, together with the testimony taken, be filed with the Administrative Board.

Respectfully submitted,

IRVIN CHASE, Chairman.
H. H. AVERILL,
GEORGE S. BARNARD,
W. E. RASMUSSEN,
W. F. MILLER.

The House agreed to the title of the bill.

The special committee appointed to investigate the granting of Pardons and Paroles, by Mr. Evans, Chairman, submitted the following report:
To the Speaker of the House of Representatives:

Your committee appointed to investigate the system of pardons and paroles in this state beg leave to report as follows: Conceiving that the House is most interested in the cases of pardons or paroles granted to prisoners under sentence for life for murder and other heinous crimes, your committee gave most of its attention to those cases.

We at once requested from the pardon board a statement of the pardons and paroles recommended for prisoners under life sentence since 1905. In response to that request we received a report which was incorrect and incomplete. This mistake was not due to any desire on the part of the pardon board to mislead, but was due, as we afterwards learned, to a misunderstanding of the clerk as to what was required. A full report was afterwards furnished, from which it appears that seventy-one prisoners under sentence for life were pardoned or paroled by ex-governor Ferris and ex-governor Sleeper since 1915, that the average time served by said life prisoners was between thirteen and fourteen years.

Your committee has had several conferences with the pardon board and they have explained to your committee quite fully the method of investigating the different cases, from which it appears that they have given a great deal of time and attention to each individual case, more, possibly, than necessary, and have acted conscientiously, using their best judgment as it appears to your committee. If they erred the error, as it appears to your committee, was on the side of the criminal. It appears that during that period (since 1915) thirty-six pardons or paroles for prisoners under life sentence were recommended after investigation by the Board of Pardons.

Thirty of such cases were pardoned by ex-governor Ferris and ex-governor Sleeper without any investigation or recommendation by the Pardon Board. And five such cases were pardoned or paroled during that period, in regard to which your committee could not learn that investigation, if any, was made. Governor Ferris apparently considered that knowledge gained by personal interviews was valuable, and granted very many such interviews, often seeing and questioning a prisoner several times before deciding what clemency, if any, should be granted. Such interviews together with knowledge obtained by correspondence and conversation with people acquainted with the prisoner and the facts in the case, apparently furnished the grounds for executive clemency by him. On the other

hand ex-governor Sleeper seemed to attach very little importance to personal interviews with prisoners, and seldom if ever, gave such an interview, but apparently depended entirely upon outside information and the Warden's report.

While your committee has no right to criticize either of the methods employed, and does not desire to do so, we still think that there should be some uniform system of application for pardons, paroles, or commutations. We feel that certain definite information ought to be required and furnished the Governor before the question of pardon or parole should be considered. We endorse the provisions contained in Senate Bill No. 256 as proper information to be furnished to the Governor, and we would suggest in addition to those provisions that there should be published at the seat of government of the state and also in the county from whence the prisoner was sentenced, for two or three successive weeks a notice that an application for pardon would be made at a certain time, and the application for pardon or parole should be accompanied by proof of such publication, to the end that the public could be informed that such application is to be made. Your committee also suggests that a complete record of the application, evidence and decision in each case be made and filed. Your committee also endorses the concurrent resolution adopted by the Senate and House, relative to the revision and codification of the laws regulating criminal procedure.

The question as to the time that criminals should be incarcerated and what effect good conduct in prison and any evidence of reform should have in the matter of pardon or parole are important ones, and your committee can only suggest that in our opinion more caution should be exercised and more publicity given before setting at large men guilty of murder or other heinous crimes which were premeditated.

The following message from the Governor was received and read:

State of Michigan, Executive Office,
Lansing, May 19, 1921.

To the Speaker of the House of Representatives:

I am returning to you herewith, without my approval, House Bill No. 459, File No. 285, being House Enrolled Act No. 226, for the reasons that the same as drafted confers upon any bank in the State, no matter what its capital, the right to invest ten per cent of its paid-in stock and surplus in the stock of other banking corporations organized and existing in other States, territories and dependencies, and in foreign countries, without any adequate provisions being made for protection of the public and its stockholders, and secondly, because it confers upon all banks within the State, the power and authority to act as executors, administrators and guardians if allowed by the Banking Commissioner.

Any change in our banking laws should be made in such manner as will

clearly indicate the extent of the authority of the Banking Department and prescribe the conditions under which, in this particular instance, the trust powers sought to be conferred can be exercised. It is my purpose to ask the legislature at its special session to reconsider this subject.

Respectfully,

ALEX. J. GROESBECK,
Governor.

The demand was seconded.

After further debate, Mr. Stevenson moved as a substitute for the motion made by Mr. Braman, to amend the bill by inserting in line 14 of section 7 after the word "State" the words, "Provided, That it shall be lawful for the State Administrative Board to purchase such bonds from time to time with the money in the Sinking Fund whenever it decides that it is profitable to do so."

The Speaker ruled the motion out of order, for the reason that the motion made by Mr. Stevenson amended a different section of the bill, that its subject-matter was entirely different, and that it was not a proper substitute for the motion of Mr. Braman.

The question being on the motion made by Mr. Braman.

The motion prevailed and the amendment was adopted, a majority of all the members present voting therefor, by yeas and nays, as follows:

The House agreed to the title of the joint resolution.

The following is the joint resolution:

House Joint Resolution No. 1 (file No. 4), entitled

A joint resolution proposing an amendment to section three of article ten of the Constitution authorizing the enactment of an income tax law.

The People of the State of Michigan enact:

Resolved by the Senate and the House of Representatives of the State of Michigan, That the following amendment to section three of article ten of the Constitution of this State, to authorize the enactment of an income tax law is hereby proposed, agreed to and submitted to the people of this State, that is to say, that the said section be amended to read as follows:

Section 3. The Legislature shall provide by law a uniform rule of taxation, except on property paying specific taxes, and taxes shall be levied on such property as shall be prescribed by law. Provision may be made by law for a tax of not to exceed four per centum upon or with respect to the net gains, profits and incomes, from whatever source derived, which tax may be graduated and progressive and which may provide for reasonable exemptions. For the purposes of such tax, property and persons, firms and corporations, upon which such tax may operate may be classified: Provided, That the Legislature shall provide by law a uniform rule of taxation for such property as shall be assessed by the State Board of Assessors, and the rate of taxation on such property shall be the rate which the State Board of Assessors shall ascertain and determine is the average rate levied upon other property upon which ad valorem taxes are assessed for State, county, township, school and municipal purposes.

Resolved further, That the foregoing amendment be submitted to the people of this State at the general election to be held in the month of November in the year nineteen hundred twenty-two. The Secretary of State is hereby required to certify said proposed amendment to the clerks of the various counties of the State in the manner required by law. It shall be the duty of the board of election commissioners of each county to prepare ballots for the use of the electors when voting on said proposed amendment which ballot after setting forth the proposed amendment in full shall be in substantially the following form:

"Vote on amendment to section three of article ten of the State Constitution.

Shall section three of article ten of the State Constitution be amended to authorize the enactment of an income tax law?

Yes ()

No ()."

Mr Henze, having reserved the right to explain his vote, made the following statement: "I am opposed to this measure for the simple reason that I think it unfair to the people of our community. I still maintain this for the simple reason that I consider the Board of State Tax Commissioners has been delinquent in taxing certain classes of property. In our community the Michigan system of mine taxation is applied to certain corporations. I have seen this worked out in my personal experience on the Board of Review. In taxing the mining companies all the mining property, such as houses and places of business, was exempted by the Board of State Tax Commissioners. I contended that those houses should be put on the tax roll as personal property and could not be real estate. In one case a certain mining corporation had 146 houses on which there had not been levied a cent of taxes for twenty years that I know of. This condition probably exists throughout the Upper Peninsula in such localities. The Board of State Tax Commissioners was lax in taxing this particular class of property. One particular mine I know of has been reduced in taxes. I wrote to the Board of State Tax Commissioners and requested certain information regarding this mine and the same was refused me on the ground that such information was confidential. Any information I asked for should have been given to me as I was entitled to it as one of the officers of the Board of Review."

Mr. Strom moved that all further proceedings under the call be dispensed with.

The motion prevailed.

By unanimous consent, the House returned to the order of

A concurrent resolution memorializing Congress to enact legislation to prohibit peonage and lynching.

Whereas, Reports of peonage and lynching in some of the States continue to shock the nation; and

Whereas, Lawless mobs continue to take the law in their own hands, although the constitutions of their States grant to all a fair and impartial trial by jury, and deny to the colored people the right of a trial before their peers; and

Whereas, Thousands of people in this State live in constant fear for their friends and relatives in the affected areas, expecting at any moment to receive word that a loved one has fallen victim to these outrages; and

Whereas, Numerous men prominent in national life have placed themselves on record as opposed to lynching and peonage; and

Whereas, The colored people of the United States have demonstrated their industry, their patriotism and devotion to this State and their usefulness as citizens; therefore be it

Resolved by the Senate (the House of Representatives concurring), That the Legislature of the State of Michigan urge all members of the Congress of the United States and particularly the members thereof representing the State of Michigan to enact legislation which will be effectual to stop peonage and lynching; and be it further

Resolved, That the Secretary of the Senate and the Clerk of the House of Representatives be instructed to send copies of this resolution to the members of Congress from this State. The message informed the House of Representatives that the Senate had adopted the resolution.

Messages from the Governor.

The following message from the Governor was received and read:

State of Michigan, Executive Office,
Lansing, June 2, 1921.

To the Speaker of the House of Representative;

In addition to the matters that were submitted to the attention of the Legislature in my message of the 24th, there are submitted the following matters for your consideration:

Additional appropriations for the Soldiers' Home—The Michigan-Wisconsin Boundary Commission—Ionia State Hospital—Mackinac Island Park Commission—Michigan College of Mines—a bill to make the appropriation of \$90,000 for the Marquette Prison cell block available during the fiscal year 1921—a supplemental deficiency bill—such additional appropriations for departments, institutions and State agencies as the Legislature may believe to be necessary.

At the request of different members of the Legislature the following matters are also submitted:

An amendment to Act No. 283 of the Public Acts of 1909 so as to regulate the installation of railroad crossings and providing for their maintenance.

An amendment to Act No. 254 of the Public Acts of 1897 pertaining to the construction and maintenance of drains, etc.

An amendment to Act No. 22 of the Public Acts of the Extra Session of 1919 with reference to the appointment of county agents and prescribing their powers, duties and compensation.

An amendment to House Enrolled Act No. 205 of the Regular Session of 1921.

The repeal or amendment of House Enrolled Act No. 103 of the 1921 session.

A bill to amend the general banking law with reference to the establishment of branch banks.

An amendment to section 12, chapter 2 of part 2 of Act No. 84, Public Acts of 1921, Corporation Code.

A bill to license service stations, garages and repair shops.

An amendment to section 10 of Senate Enrolled Act No. 84 of the session of 1921.

A bill to provide for the assessment of public utilities operating in more than one county by the State Board of Assessors.

The House has already passed the Soldiers' Bonus Bill, but it was amended in several particulars, principally with reference to the time of maturity of the bonds that are to be issued. This amendment provides that they shall mature serially in 10, 20 and 30 years. It will be recalled that at the general session a joint resolution was passed designating the kind and character of the bonds that were to be authorized at this session. Both previous and subsequent to the adoption of that resolution the State Administrative Board had taken up the matter of the sale of the bonds when authorized. After canvassing the situation thoroughly, it was found that the most salable bond and the one most likely to meet

with the greatest favor in view of market conditions was a straight 30-year proposition. There seems to be some misconception as to the effect of the proposed amendment. It has been stated that there will be a saving of considerable interest money if the bonds are made to run serially. This of course is a plain fallacy if the Legislature makes provision for an adequate sinking fund which can be used to retire the bonus bonds as they are offered on the market or to purchase Federal, State and municipal bonds bearing a like or higher rate of interest. It is imperative that the bonus money be available July 1st, and anything which jeopardizes this should be avoided.

Respectfully submitted,

ALEX J. GROESBECK,
Governor.

Gently Thou hast led us through all the years that have passed. May Thy blessings rest upon the members of this legislative body. By Thy wisdom may they be guided; by Thy strength may they be upheld. In all their plans and purposes and undertakings may they seek to honor the best interests of the commonwealth. And to Thee shall be glory and power. Through Jesus Christ, our Lord. Amen."

Mr. Dafoe, having reserved the right to explain his vote, made the following statement: "I voted for the House amendment having the bonds issued for terms of ten, twenty and thirty years. As has been said, this is one of the most important matters that this House has had to consider. I believe that a man when he votes ought to be satisfied that his vote is right. I have not been convinced by all the arguments for and against the adoption of the Senate amendments. I voted "no" because I feel that I will be better satisfied to vote for the Senate amendments providing there is a conference between the Senate and the House.

I have perfect confidence in the Governor and the State Administrative Board, and as often heard in court, when the judge is presenting the question to the jury, you have to have confidence in the court. I believe we have to have confidence in the government officials and the Governor; and I believe that the Governor, together with the committee from the House and the committee from the Senate, are the proper solution of this question to issue a thirty-year bond rather than according to the amendment adopted by this House, and this is why I voted "no" on this proposition.

Mr. Culver moved that the House take a recess until 2:00 o'clock p. m.

A message was received from the Senate informing the House of Representatives that the Senate had adopted the following resolution:

House Concurrent Resolution No. 8.

A resolution memorializing Congress relative to the proposed monument to Joseph W. Guyton, the first American soldier killed on German soil.

(For text of resolution see p. 57 of House Journal.)

A message was received from the Senate transmitting the following resolution: Senate concurrent resolution No. 2.

A concurrent resolution memorializing Congress to submit an amendment to the U. S. Constitution relative to an income tax.

Whereas, It is apparent that many citizens of Michigan favor levying hereafter a State income tax such as is imposed by several other States, in an endeavor to more equitably distribute the cost of government, and to relieve the burden of taxation now necessarily placed upon real estate and personal property; and

Whereas, Adoption of the plan may cause many at the head of important organizations and especially those with substantial incomes, to consider establishing their residences and business elsewhere, either in States levying a smaller income tax, or States or territory where this particular tax is not and may not be put in force, thus in effect and result tending to become detrimental to the best interests of Michigan, and may other States where large enterprises exist; and

Whereas, It may nevertheless be necessary to levy and collect this proposed additional State tax, or its equivalent, in order to meet the continually growing cost of the State's needs; then in order to make the revenue from an income source uniform throughout the United States, and all citizens of the entire country contributing thereto exactly alike, also to avoid the expense, trouble and annoyance of preparing and filing two sets of income returns, (probably different in amount and principle), and afterwards accounting to two sets of officials, Federal and State, thus actually and unnecessarily doubling the cost of operation and collection; therefore be it

Resolved by the Senate (the House of Representatives concurring), That the Legislature of the State of Michigan urge all members of the Congress of the United States, and particularly the members thereof representing the State of Michigan, to propose and submit an amendment to Article XVI of Amendments to the Constitution of the United States to be known as "Section 2," the Article when amended to read substantially as follows, viz:

ARTICLE XVI.

Section 1. The Congress shall have power to lay and collect taxes on incomes, from whatever source derived, without apportionment among the several States, and without regard to any census or enumeration.

(Proposed Addition or Amendment to above follows, to be known as Section 2.)

A message was received from the Senate returning with certain amendments House Bill No. 4 (file No. 5)—

A bill to amend section 8 of Chapter 1 of Part 1 of Act No. 84 of the Public Acts of 1921—an act to codify the corporation laws.

The following are the amendments made to the bill by the Senate:

(1) Amend the enacting section by inserting in line one, after the words "part one," the words "and section twelve of chapter two of part two."

(2) Amend the enacting section by striking out in line eleven the word "is" and inserting in lieu thereof the word "are."

(3) Add a new section to the bill, to stand as section 12, chapter 2 of part 2, as follows:

Section 12. Every stock corporation shall have the power to borrow money and contract debts, when necessary for the transaction of its business, or for the exercise of its corporate rights, privileges or franchises, or for any other lawful purpose of its incorporation; and it may issue and dispose of its obligations for any amount so borrowed, and may mortgage its property and franchise to secure the payment of such obligations, or of any debt contracted for said purposes. Every such mortgage, except purchase money mortgages, shall be consented to by the holders of not less than two-thirds of the capital stock of the corporation, which consent shall be given either in writing or by vote at a meeting of the stockholders called for that purpose, and upon the same notice as that required for the annual meetings of the corporations; and a certificate under the seal of the corporation that such consent was given by the stockholders in writing, or that it was given by vote at a meeting as aforesaid, shall be subscribed and acknowledged by the president or vice-president and by the secretary or an assistant secretary of the corporation and shall be filed and recorded with the instrument; (Provided, however, That the stockholders may in the articles, or in an amendment thereto, confer general authority upon the directors to mortgage the property of the corporation, in which case each such mortgage shall contain a reference to such authority.) When authorized by like consent, the directors, under such regulations as they may adopt, may confer on the holder of any debt or obligation, whether secured or unsecured, evidenced by bonds of the corporation, the right to convert the principal thereof, after two and not more than twelve years from the date of such bonds, into stock of the corporation; and if the capital stock shall not be sufficient to meet the conversion when made, the stockholders shall, from time to time, authorize an increase of capital stock sufficient for that purpose in the manner hereinbefore prescribed.

The message informed the House of Representatives that the Senate had passed the bill as thus amended, and had ordered that it take immediate effect.

The message further informed the House of Representatives that the Senate had amended the title of the bill so as to read as follows:

"A bill to amend section 8 of chapter I of part I and section 12 of chapter II of part II of Act No. 84 of the Public Acts of 1921, entitled "An act to provide for the organization, regulation and classification of domestic corporations; to prescribe their rights, powers, privileges and immunities; to prescribe the conditions upon which corporations may exercise their franchises; to provide for the inclusion of certain existing corporations within the provisions of this act; to prescribe the terms and conditions upon which foreign corporations may be admitted to carry on business within this State; to prescribe penalties for violations of the provisions of this act; and to repeal certain acts and parts of acts relating to corporations," approved April 26, 1921."

The Speaker announced that under Rule 58 the bill would lie over one day.

Mr. Ramsey, having reserved the right to explain his vote, made the following statement: "I wish to say the reason I voted "no" was because I had confidence in the assertion that Mr. Braman made. We have sold \$3,000,000 of road bonds at 20 years at a premium, and I contend that this bonus bond issue could be sold at a saving to the taxpayer. I refuse to be commanded."

Mr. Holland, having reserved the right to explain his vote, made the following statement: "Almost completing my fourth term in this honorable body, I must admit that this is the first time I ever voted against my best judgment. In my opinion the bond brokers of the United States have taken advantage of the opportunity they saw at this time. I voted "yes" because I believe a great many of the young men who fought for and saved our country are in want at this time, and rather than hold them up any longer I am willing to sacrifice a portion of my principle, at least, at this time."

JOURNAL OF THE HOUSE

SPECIAL SESSION OF 1921

NUMBER TWELVE.

Lansing, June 10, 1921.

9:00 o'clock a. m.

The House was called to order by the Speaker.

Dr. Edwin W. Bishop, of the Plymouth Congregational Church, of Lansing, offered the invocation:

"Divine Ruler and Guardian of safety and liberty, we are met this morning for the last session of this House of Representatives of this fair commonwealth. We give our hearty thanks for the measure of strength and health which has enabled these men to come together week after week and consider the higher interests of our State. To the family of that one which has been bereaved, we pray that Thy consolations may be granted in large measure. We pray that Thou wilt add Thy benediction to these closing moments. To such laws as have been passed and placed on the statute books, may it be that they shall add to the security and the happiness and the prosperity of our State. Give clearer vision amidst all conflicting interests to these men in the last hours of the session that they may gather up and complete their work. Where there may be a failure through prejudice, passion, lack of vision, wilt Thou forgive, and during the interim before these rooms are again filled with those sent here for the great purpose, we pray Thy divine protection may be granted and the commonwealth and our State led forward in paths of prosperity and peace. We ask it in the name of the Great Father, God. Amen."

Mr. Culver, having reserved the right to explain his vote, made the following statement: "I voted 'yes' on that bill rather than be the cause of holding it up. Personally I don't see any necessity for this appropriation. I have learned a little about State finances in the last twenty-four hours I didn't know before. I learned that it isn't necessary to make appropriations because the State Administrative Board can take care of the matters anyway. Two days ago I introduced a bill providing for a \$10,000 appropriation for the sick and disabled Spanish war veterans. The Speaker pro-tem referred that bill to the Committee on Military Affairs. I made a motion that it be sent to the Committee on Ways and Means, and it is still there. I am informed by members of the Committee on Ways and Means that the Governor states that they don't need this bill to take care of the Spanish War veterans and that the State Administrative Board can do it. If the State Administrative Board can do that, I am inclined to think that they can take care of this without the appropriation bill, but rather than be the means of holding the bill up, I voted "yes."

JOURNAL OF THE House of Representatives

SECOND SPECIAL SESSION OF 1921

NUMBER ONE.

Lansing, Thursday, June 30, 1921.

1:00 o'clock p. m.

The House was called to order by the Speaker.

Rev. G. W. Simon, of the First Presbyterian Church of Lansing, offered the invocation:

"Unto Thee, Our Father, we bow at this time, and we thank Thee for the blessings of this bright and beautiful day, for the joys of this assembly, for thy benedictions that are more than we can number as Thou dost add to them day by day. Our Father, as we approach the great natal day of our nation, help us to remember what a heritage is ours, that this nation of ours was settled not in the day of mediaeval darkness, but in the day of light of the Reformation, that the principles of that great onward movement were brought to us by the best men and women that the world has had. We thank Thee for the great opportunities of liberty and justice and righteousness and may we be mindful of the men and women who believed in those principles, who inculcated them into their business; and may we be worthy of our heritage, our Father, and as we take counsel of one another, may we also take counsel of Thee, to whom we are especially responsible. May we be true to those elements of truth and righteousness that are a bulwark of everything, and bring a season of continued prosperity and national liberty. May all things be done to Thy honor and glory, in whose name we ask it. Amen."

The roll of the House was called by the Clerk, who announced that a quorum was present.

The following members were absent: Messrs. Chase, Emerson, Glaspie, Haan, Henze, Hopkins, Hubbard, Hunter, Jensen, Meggison, Palmer and Strom.

The Speaker directed the Clerk to read the certified copy of the Governor's proclamation, which is as follows:

State of Michigan, Executive Office,
Lansing.

Proclamation.

To All Whom It May Concern:

Greeting:

By virtue of the authority vested in me as Governor of the State of Michigan, I hereby call the Legislature of the State to meet in extraordinary session on June thirtieth, 1921, at one o'clock in the afternoon, for the consideration of such matters as may be submitted by special message.

(SEAL)

Given under my hand and the Great Seal of the State at the Capitol, in Lansing, this twenty-fifth day of June in the year of our Lord, one thousand nine hundred and twenty-one, and of the Commonwealth the eighty-fifth.

ALEX. J. GROESBECK,
Governor.

By the Governor:

CHARLES J. DELAND,
Secretary of State.

I, Charles J. DeLand, Secretary of State of the State of Michigan, and custodian of the Great Seal of the State, hereby certify that the foregoing is a true and correct transcript of a proclamation issued by the Governor, convening an extra session of the Legislature, the original of which is on file in this office.

(SEAL) In Witness Whereof, I have hereunto affixed my signature and the Great Seal of the State, at Lansing, this twenty-fifth day of June in the year of our Lord, one thousand nine hundred and twenty-one.

CHARLES J. DELAND,
Secretary of State.

By ELBERT V. CHILSON,
Deputy Secretary of State.

Messages from the Governor.

The following message from the Governor was received and read:

State of Michigan, Executive Office,
Lansing, June 30, 1921.

To the Speaker of the House of Representatives:

Since the adjournment of the first special session of the Legislature on June 20th, the Administrative Board has endeavored to make disposition of the thirty millions of bonds authorized to be issued by virtue of the provisions of Act No. 1 of said session, and in this connection has been in almost constant communication with the representatives of banking and bonding institutions for the purpose of securing the necessary funds with which to pay ex-service men in accordance with the mandate of the Legislature.

When the bids were opened on the fifteenth of June, it was ascertained for the first time that within a very short period previous to that date the market conditions for securities of this nature had become unsettled and that there was little immediate likelihood of finding purchasers willing and able to accept these obligations and make payment therefor within such a period as would insure the payment of the bonus moneys as rapidly as required. In fact, on that date the prospects for the sale were very meager. This was almost wholly due to the fact that the bond market at about that time had taken a bad turn and many financial institutions found themselves in possession of different issues of securities theretofore purchased which they were unable to dispose of to their customers. It was in no part due to the interest rate of five and one-half per cent which the coupon bonds bear. Besides this, the question has arisen as to whether the bonds were exempt from taxation in Michigan. This question has been discussed and there is a variance of opinion thereon. Various suggestions have been made as to what action should be taken by the State to close up the matter satisfactorily and among them it has been proposed that it may be necessary to issue temporary bonds or notes so as to tide things over until conditions become more normal. The situation thus canvassed has also disclosed the fact that it is an utter impossibility to dispose of serial bonds bearing the five and one-half per cent rate at this time, and the best information that we are able to obtain is that such bonds would be absolutely a drug upon the market. Taking the whole matter into consideration, I thought it advisable to call this special session so as to remove all doubts concerning the tax exemption features of these obligations, to provide for the issuance of temporary bonds, notes or certificates and to amend the act referred to in such manner as to place the Administrative Board in a position where, without undue technical restrictions, it will be able to negotiate these loans so as to carry out the intents and purposes of the constitutional amendment and the will of the people as expressed by the action of the Legislature.

To accomplish these purposes, the Legislature is respectfully requested at this session to amend Public Act No. 1 of the First Extra Session of 1921 by incorporating a tax exemption clause therein raising the maximum rate of interest to five and three-quarters per cent, and also authorizing the State Administrative Board to prescribe the time of issue and date of redemption and place of payment of the bonds issued. In addition to these amendments, the Board should be authorized to issue temporary bonds, notes or certificates so as to enable the prompt negotiation of the thirty million dollar loan.

In addition to the matters pertaining to the bond issue, there should be an additional appropriation to defray the expenses of the Legislature for the biennial periods ending June 30, 1921, and June 30, 1923.

Respectfully submitted,
ALEX. J. GROESBECK,
Governor.

The House agreed to the title of the bill.

Mr. Lord moved that the bill be given immediate effect.

The motion prevailed, two-thirds of all the members-elect voting therefor.

Mr. Braman, having reserved the right to explain his vote, made the following statement: "I voted 'No' on this bill, not because I don't want the soldiers to have their money—they are entitled to every cent which this bonus bill will give them—but the method by which this bonus law provides for raising of money is not the most economical way of raising that money. The plan is the most burdensome that could be enunciated. It provides for an increase of interest from $5\frac{1}{2}$ per cent to $5\frac{3}{4}$ per cent, to which I am opposed. Another reason I am opposed to this bill is for the fact that the soldiers will not be permitted to take any of the bonds, to which they are entitled. If there are any hand-outs to be given, it should be to the soldiers of the State of Michigan, and I think we have made a very grave mistake in not giving the soldiers who bled for the State, an opportunity, along with the bonding companies, syndicates and financiers. For this reason, I voted against the bill.

I am opposed to this bill because the bill allows the possibility of a straight 30 year bond issue for \$30,000,000, which is not a safe and sane method of financing or raising the bonus for the soldiers.

I am voting against this bill because there is no specific provision for raising this \$30,000,000 bond issue serially in 30 equal annual payments. I am therefore convinced that this bill is one huge scheme of frenzied finance."

Mr. Holland, having reserved the right to explain his vote, made the following statement: "I assure you with all the sincerity that I possess, that this is the hardest task that I have had in my experience in the Legislature. I voted 'No' on this bill, and I did it for the following reason—I think those people who have profited by the war and from the deaths and tortures of our young Americans, after they had created one millionaire for every three lives that were lost across the sea, it was their duty to come across and show some responsibility and help us out on this.

"I want to say to you gentlemen that we turn out as good and as patriotic a bunch of boys as ever took a breath of life. They gave their lives and everything that was theirs, and those people who have held the Legislature responsible think they have gained the sympathy of our soldiers. But if they expect to do this by penalizing the people of the State they are mistaken.

"I am opposed to raising the interest on those bonds to $5\frac{3}{4}$ per cent, because our boys do not favor a proposition of this kind—that is to say, paying them \$30,000,000 in bonuses and paying the bonding companies \$50,000,000 in interest.

"In the next place, I am not willing to vote for a bond issue for thirty years without being a serial issue, because I think it is an imposition on the people of the State, and when I go back to our boys and explain to them the reason I voted 'No,' I think that they will approve of my actions. I have every confidence, as far as they are concerned, and have no fear of what they will say."

Mr. Rowe, having reserved the right to explain his vote, made the following statement: "I do not believe that it is for the best interests of the State of Michigan to issue these long time bonds, and for that reason, I voted against this bill. I have not opposed this on account of trying to keep the boys from receiving

the money which was voted for them by the State of Michigan, but simply for the reason of what, in my judgment, would be the way to issue these bonds to the best interests of the State of Michigan, which I feel has not been done under this form of issue. Therefore, I voted against this measure."

By unanimous consent, the House returned to the order of

Rev. C. W. Kemper, of the First Baptist Church of Lansing, offered the invocation:

Remind us this day, O God, of Thy tireless care for us, for the constant care of the life of human kind. We beseech Thee, O God, guide us in the performance of the duties entrusted to us, to discharge the responsibilities put upon us in the light of Thy guidance, that in the light of our truth, in the light of our great responsibilities, we shall do our tasks and shall perform them as those who value the task of living and the opportunity of service. We ask this in the name of our Christ and our Lord. Amen."

The roll of the House was called by the Clerk, who announced that a quorum was present.

The following members were absent: Messrs. Brown, Dacey Dunn, Ewing, Farrier, Frick, Fuller, Hall, Holland, Hartway, Jensen, Jewell, Lee, Lord, Moore, Mosier, Palmer, Rasmussen, Smith, and Town.

Introduction of Bills.

Mr. Ramsey offered for introduction a bill entitled

A bill to amend section four of act number two hundred seventy-nine of the Public Acts of nineteen hundred nine, entitled "An act to provide for the incorporation of cities and for revising and amending their charters," being section three thousand three hundred seven of the Compiled Laws of nineteen hundred fifteen, as amended by act number three hundred forty-eight of the Public Acts of nineteen hundred twenty-one.

Messages from the Governor.

The following message from the Governor was received and read:

State of Michigan, Executive Office,
Lansing, July 19, 1921.

To the Speaker of the House of Representatives:

Public Act No. 147 of 1921 was approved May 11. Public Act No. 348 of 1921 was approved May 18th and inadvertently repealed certain amendments made by Act No. 147.

For the purpose of correcting this error, Section 4 of Act No. 279 of the Public Acts of 1909, as amended, being an act to provide for the incorporation of cities and for revising and amending their charters, and known as the Home Rule Act, should be amended.

The Department of Conservation has at present the right to accept gifts of property for park purposes but has no authority to contract with counties, townships or cities for their maintenance and improvement. This power should be conferred upon that Department and a bill embodying the necessary provisions has been drafted.

Section 16 of Act No. 302 of the Public Acts of 1915 as now amended relating to lights on automobiles has been found to be altogether too drastic in its requirements and affords an opportunity to unduly impose upon owners of automobiles. Some of its provisions and restrictions should be repealed and others amended so as to make them conform to the reasonable demand of public safety and travel.

These subjects are submitted for your consideration and action and I consider it appropriate to thank you individually for the large attendance on the closing day of this session.

Respectfully,
ALEX. J. GROESBECK,
Governor.

The following message from the Governor was received and read:

State of Michigan, Executive Office,
Lansing, July 19, 1921.

To the Speaker of the House of Representatives:

In addition to matters already submitted, I herewith submit the following for consideration:

Inadvertently there was omitted from Act No. 293 of the Public Acts of 1921, a provision granting power to enter an order for the appearance of defendants in proceedings covered by the Act. This should be corrected.

Respectfully,

ALEX. J. GROESBECK,
Governor.
